## FORWARD MOVING VIBRATORY PLATES

PETROL

DIESEL

### PACKING POWER

The APF 20/50 provides the most power in the new APF lineup. It features a working width of 500 mm (19.7 in) and centrifugal force of 20 kN. The plate's technologically advanced exciter unit is completely maintenance free. The exciter system also provides significant forward-moving power to enhance productivity in challenging materials and on steep grades. The APF 20/50 petrol version can be equipped with either a Honda, Vanguard or Rato engine. The APF 20/50 Hatz combines all the benefits of other Ammann plates with a diesel engine that makes fueling at the jobsite more convenient. The diesel engine provides engine power of 3.2 kW (4.3 HP) and also excels in higher altitudes.

### SIMPLE OPERATION

- Operator safety with low HAV levels on the handle
- Machine frame that enables secure grip
- Great maneuverability boosts accuracy and makes work simple

### POWERFUL COMPACTOR

- Generously sized, powerful exciter unit
- Leading compaction power, speed, climbing ability and machine life
- Compact dimensions allow use on sites with limited space

### READY FOR RENTAL

- Low cost upkeep for owners
- Good match for many applications
- Easy for new users to operate

### SERVICEABILITY

- Maintenance-free exciter system
- Full engine protection frame
- Toolless daily maintenance

### VERSATILE OPTIONS

- Toolless mountable water tank and sprinkler system
- Toolless mountable rubber mats to change onto paving stones
- Permanently mounted transport wheels ensure easy relocation of the machine on site

### APPLICATIONS

- Compaction in confined areas
- Asphalt and paving applications
- Light to medium patchwork
- Pipeline and trench construction
- Landscaping and gardening
- Earthwork

## HIGHLIGHTS

- Low-vibration handle for operator safety and comfort
- Maintenance-free exciter system
- Self cleaning and wear resistant base plate
- Engine frame for protection on the jobsite and during transport
- Transport wheels, which can be dropped with a foot release, for increased mobility on the jobsite
