

POWER-SPRAYS

LW Facing Coat Spray Gun

POWER-SPRAYS

LIGHT WEIGHT FACING COAT SPRAY GUN

The Power-Sprays Light Weight Facing Coat Spray Gun is designed for spraying mist coats and pumpable facing coats. These are sprayed directly on to the mould prior to the GRC backing.

The gun is designed to be used with the Power-Sprays range of spray stations – PS38, PS9000 and PS10,000 series.

Alternatively, the LW facing coat spray gun can be used 'on-site' with the PS1000, 2000 and 4000 spray machines to apply a wide range of concrete repair, protective coatings and other specialist cementitious materials.

Specification:

Weight:	450gms
Dimensions (overall):	170 x 50 x 100mm
